VOLUNTARY ANNOUNCEMENT - BUSINESS UPDATE
4 TOP CHINESE AUTOMAKERS DEBUTED
SATELLITE MULTIMEDIA CONCEPT-CARS

The Group (CMMB Vision together with its subsidiaries and affiliates) would like to report to shareholders regarding its satellite connected-car multimedia trial network in China as follows:

Mainstream auto OEMs in China, in supporting the development of satellite connected-car multimedia, have developed a number of device solutions and equipment catered to satellite multimedia reception and transmission, and such solutions and equipment have been installed and incorporated into pre-factory prototype vehicles, i.e., concept-cars, which were displayed at the recent industry conference in Sanya, Hainan.

Among the car-makers who debuted their concept-cars were the top four Chinese OEM automakers, which included: (1) China FAW Hongqi Group (一汽紅旗), (2) Dongfeng Renault Automobile (東風雷諾), (3) Changan Automobile (長安睿騁), (4) Beiqi Foton Automobile (福田汽車), as well as other commercial vehicle makers.

During the Sanya Hainan conference, many carmakers and equipment vendors also displayed diverse products and solutions, such as pre-factory and after-factory in-car multimedia solutions, terminal device chipsets, shark-fin antennae, precision and testing instruments, and various components and accessories, which garnered a great deal of industry attention. The display demonstrated that such products and solutions are ready for commercial use.

The Group thanks its shareholders for their support and will report on any significant new development as soon as applicable.

By order of the Board
CMMB Vision Holdings Limited
Wong Chau Chi
Chairman

Hong Kong, 24 January 2018
